The common focus is the struggle in various countries to define, advance, or delimit freedom after the French Revolution. The introductory chapter evokes the problematic relationships between reform and revolution and introduces themes that appear in subsequent chapters, though each chapter is a free-standing

author starts with the death of Emperor Joseph II in 1790, the event which he takes as marking the turn of the tide in the struggle between autocracy and centralisation on the one side, and the new forces on the other; but he prefixes his narrative with a brief account of Joseph's own reign, and with a comprehensive picture of the old monarchy on the threshold of the new age. C. A. Macartney takes his subject as comprising the monarchy as a whole, every people, class and province in it. He thus brings and makes intelligible the diversity within the unity, and the unity synthesising the diversity, which give

As state after state succumbed to the violent winds of change that were sweeping the continent. How did the Habsburg Empire survive? How was the army able hold together while the rest of the empire collapsed in civil war, and how was it able to seize the political initiative In this new edition, Alan Sked reflects on the changed understanding of the period which resulted from the first appearance of this book, and widens the discussion to look at the Habsburg

Contemporary Austria is a fixture among Europe's democracies. Yet, it did not achieve this state easily: World War I, the unification with Germany in 1938, and World War II were catastrophes for Austria.
